THE GAUDIUM SCHOOL

ABOUT US

Can education move from merely imparting knowledge to showing how to apply that knowledge? Can we as parents move from mindless test-scores to a more meaningful method of evaluation? Can a child be taught to recognise and create value in everything he or she does? These were some questions that inspired us to start **The Gaudium School, Hyderabad**. Gaudium means 'Joy' in Latin. The faculty at The Gaudium School, Hyderabad helps each child find joy through the core values of integrity, perseverance, compassion, appreciation, humility, respect and tolerance. The philosophy of The Gaudium School, Hyderabad is guided by the concept of 'value-creating education' which was developed to reform education and to make the world a better place. Education does not exist for the sake of the nation, for business, or for religion. The aim of value-creation education is the happiness of oneself and others, as well as society as a whole, and peace for all humanity.

Mrs. Kirthi K Reddy

Founder

"Students of The Gaudium are encouraged to identify and develop their own means of happiness that they take forward into their lives beyond school. As a result of our holistic approach, a child stepping out of our institution will not merely excel in his or her chosen career but will also succeed as a well-balanced and culturally enriched human being with a positive approach to life. At The Gaudium School, we don't believe in merely educating children. Our mission is to sculpt happy minds."

GREATNESS QUOTIENT

Tailored Learning Strategies

Customised learning plans enable students to develop the skills and study habits needed to improve their academic performance with ease. The Gaudium School challenges advanced learners and provides additional support to students through a personalized programme.

Practical Teaching Models

The STEM programme at The Gaudium School integrates all the core subjects with technology to provide a hands-on, holistic approach to learning. STEM combines these areas because the skills and knowledge in each discipline are essential for student success as the fields are deeply intertwined in the real world.

Social and Civic Responsibility

At The Gaudium School, evaluation of students covers all aspects of student development including areas such as values, attitudes and life skills (thinking skills, social skills and emotional skills). The school prepares students to excel both academically and emotionally by nurturing morals, ethics, and human values along with a sense of nationalism and social responsibility.

Experienced Counsellors and Physiologists

If a child has learning difficulties, remedial teaching is provided through special instruction programmes. In case students display behavioural issues, an experienced psychologist counsels them. Importantly, teachers at the school develop open lines of communication between the school and the parents on daily basis to track the child's progress.

Emphasis on Theatre and Dramatics

As experienced educationists, faculty at The Gaudium School is fully aware of the positive role and impact that dramatics has in enhancing child development—and thus the school emphasises on theatre whose benefits include: building self-confidence, expanding imagination, teaching, empathy, improving, concentration, enhancing communication skills and building cooperation/ collaboration.

Holistic Education Programmes

Everything children do contributes to their learning. Academic pursuits are not isolated from sports or other activities. When a child synergistically internalises them, absorption of knowledge is far greater. Academics through STEM, theatre, Do-It-Yourself (DIY) programmes and Personal, Social, Physical Education (PSPE) can fulfil this objective.

ACHIEVEMENTS

The Gaudium School received the title of the Best Emerging School Award from West Zone by the Times.

With an energy efficient campus, the school has been an inspiration for many other education institutions to follow in its path.

World-class sports infrastructure that's among the best in schools is here at The Gaudium.

The school has a sustainable campus and always encourages students to be responsible members of the society.

Pranati Gangavatiker,
Student

STUDENT SPEAK

"Transforming from a regular student into a Gaudium student who understands the world and develops into a fine young human with the help of the attitude and profiles provided by the school was an eye-opener for me. The students of The Gaudium are taught all the characteristics one could develop over time."
