

**GRADE 1** 

# Message from the Principal's Desk

Dear Parents. Greetings!

Leadership capabilities range from intellectual and interpersonal skills to the conceptual and creative required in today's environment. Effective leaders are aware of the happenings in this chaotic world. They realize the new and better methods and at the same time integrate it into a cohesive framework that helps others understand the next step forward.

Leaders are not just about decision making and strategy, they are the ones who take risk, go against the grain, often driven by a higher cause, a deep care for others or a complete conviction that they are acting for the greater good.

In this edition of the newsletter, I share with you an interesting and a valuable leadership story and lesson!

There was a beautiful kingdom, which was ruled by a prince who took over the Kingdom after his father's death. After few months of ruling, things started testing him. The drought caused losses for the farmers, many animals, birds, and precious plants in the forest were lost. This was followed by an unknown disease which affected many people. After few months, things started slowly improving.

Before they could recover completely, an enemy king took over the kingdom. The young king somehow managed to escape and planned to meet his childhood friend who was the king of a neighbouring kingdom.

On his way, he was thinking about how all these things could have happened to him. He was born to be a king of the most powerful and richest Kingdom, but now he lost everything. He believed that he had bad luck because nothing has happened to his father or any other king he knew.

When the Young king reached his friend's palace, the guards did not allow him, because of his dirty looks and clothes and he tried many times and all failed. He took a job so that he can buy some clothes. After some days with new clothes, he was allowed to meet his friend.

He explained all the things that happened to him to his friend. After hearing his story, his friend king ordered his people to give him a herd of 100 sheep. The young king was surprised as he was expecting much more than this. He doesn't want to be a shepherd. But he has nothing else, so he took his friend's offer.

After a few days, while he was grazing his herd, a group of wolves attacked his herd and killed all. While the wolves were attacking, the king ran away from that place. Then he again went to his friend and asked for help. This time he gave 50 Sheep. But once again be failed to protect his herd from the wolves. The 3rd time, he was given just 25 sheep. This time young king decided that, if I don't protect my herd from these wolves, he will not get any more help from his friend. So, he studied his place completely and understood the wolves' attacking areas. He added additional fences and guards all around. He continued to monitor the places and talked to all people and kept on learning the tricks of maintaining the herd.

After a few years, his herd has grown into 1000 Sheep. With so much joy he met his friend and shared his achievement. After hearing him, the friend ordered his ministers to give him a whole state to rule over. Hearing this, he asked his friend "Why you didn't give me the state to rule when I first came to you for help?

The friend king replied, "First time when you came to me for help, your mindset was like you were born to be a leader, but the truth was you are far from it. You needed to learn to lead your people. So, when I gave you the herd, I was waiting for you to learn, how to manage and lead others. Now I believe you are ready to lead others!"

(Source-https://winnersstory.com/short-stories-leadership-1/- adaptation)

Holding a position doesn't make you a leader. Knowing your people better, winning hearts and minds, achieving dreams and goals are important.

Leaders handle situations for a better outcome- they make a difference.

Let each one of us ensure that we are leaders, who are ready to make a difference and provide our students opportunities to build their leadership capabilities as well.

**Best wishes** 

**Anjalika Sharma** 

# Message from the PYP Coordinator's Desk

Dear Parents,

Greetings!

As we continue our journey this academic year, we aim at nurturing self-efficacy and agency amongst our students. Our teachers and students continue to be a partner in the learning process. The students continue to set goals for their learning, co-construct success criteria, assessment tool and tasks along with their teachers. They have started making connections with attributes of Learner Profile and Approaches to Learning.

As a part of the evaluation our teachers have been divided into 4 groups according to the 4 categories- Environment, Learning, Purpose and Culture.

They have been working in their respective groups and actively collecting evidences and analysing it. We are in the process of reading the self-study questionnaire.

Our parents have been a part of the informative sessions and have been attending it to understand the programme better.

They had sessions for understanding Policies, Assessments in PYP, Design Thinking and Inquiry. We also conducted sessions for our administrative department on policies and alignment of IB mission and school mission.

All our teachers have been registered for an online IB workshop. They will attend the workshop from 1st to 29th of September.

To improve our well-being, keep ourselves calm and healthy our P.E department has taken an initiative and started the programme "Start your day with Yoga". The students, teachers and parents have started joining us in the morning to practice Yoga asanas.

We value your cooperation, support and trust. Looking forward to have a great year ahead.

**Trishna Sharma** 

**PYP** Coordinator

# School Philosophy- 5 Developmental Pillars

#### **Mindfulness and Well-being**

Students practiced bunny breathing, slow walking and sense countdown. They also discussed about their feelings and emotions as part of selfawareness. Students also talked about what happiness is for them and framed heartful phrases for themselves and their peers.

During the counseling session the students discussed about emotional regulation. They looked at various emotions and strategies to calm themselves. They also read 'My Different Coloured Days' by Dr. Seuss.

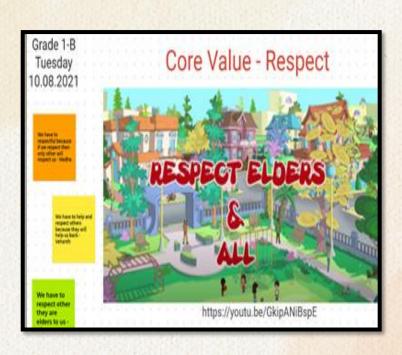

## School Philosophy- 5 Developmental **Pillars**

#### **Core values**

Students continued to develop their understanding of the Core value 'Respect', through various ways. They connected to stories related and shared real-life examples of where they have displayed respect.

#### **Holistic Excellence**

As a part of holistic excellence, students participated in DEAR Time and engaged in read aloud sessions. They read online books and shared their reflections. They started working on their portfolios.

Students continued to make connections with attributes of learner profile during the learning and teaching. They have been introduced to Design Thinking process in connection with their unit of inquiry.

## School Philosophy- 5 Developmental **Pillars**

#### Stakeholder engagement

Various events were conducted to promote stakeholder engagement such as, 'Bonding over breakfast' and 'National Sports Day'. "Begin your day with Yoga', was launched too for all the students and teachers along with their family members to practice yoga and make conscious efforts towards leading a healthier lifestyle.

Teachers collaborated and continued to work in their respective groups according to the 4 categories - Environment, Learning, Culture, and Purpose to analyze each practice and continued to collect the evidence.

As a part of the evaluation, parents had their informative sessions to know more about the programme. These sessions helped the stakeholders to come together and take an active part in the learning process.

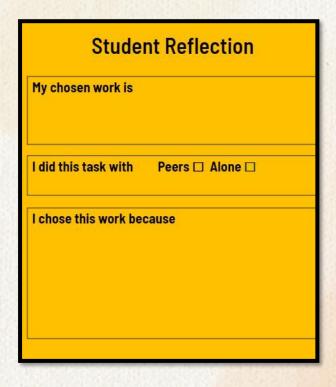

## School Philosophy- 5 Developmental **Pillars**

#### **Global Leadership**

Students demonstrated their ownership of their learning by engaging in sharing the choice of work they would like to include in their portfolio that shows their learning or progression of learning.

Students continued coconstructing of criteria for assessments.

Students got an opportunity to present their learning confidently in front of the learning community through their class assemblies.

## **Professional Development**

# Session by the inclusion department

Ms. Jaswandi Sahasrabudhe, School counsellor, conducted a session on Self-criticism. It is an evaluation of one's behaviour and attributes, with recognition of one's weaknesses, errors, and shortcomings. Self-criticism impacts our decision-making skills, leads to clouded thoughts, strained relationships with others and self, and negative thoughts patterns about ourselves. She concluded the session by suggesting few ways we can work on excessive selfcriticism and emphasized on the importance to balance selfimprovement with selfacceptance.

#### **Evaluation self-study:**

We continued to collaborate and share different strategies to collect and analyze the evidence for our self-study process by revisiting the IB standard and practices document.

# Parent informative sessions:

We conducted the parent informative and interactive sessions for the parents on various policies, Inquiry, Design Thinking, and Assessments.

These sessions are designed primarily to understand the elements of the programme as well as our journey in the programme.

## **Professional Development**

#### **Reading Sessions**

The following documents were discussed as part of our regular reading sessions:

Solo Taxonomy: This document focused on understanding different levels of thinking within the SOLO taxonomy and discuss how SOLO taxonomy can be used to design learning outcomes across a unit of inquiry (a learning progression), identify inquiry-based strategies to support students and structure success criteria for a specific task.

#### Student Language Agreements:

Through this document we developed an understanding of how to establish agreed understandings about language use among students and teachers.

Translanguaging: This document covered what translanguaging is. As part of sharing reflections, the team discussed strategies for building an active translanguaging classroom.

Developing a culture of questions: We read and shared our reflections on the importance of questions in inquiry learning, and how students can be supported in developing their questioning skills.

Flexible Unit Time Frames: The document gave insight to a range of flexible unit time frames and the associated benefits.

# Learning and Teaching-Month Review

#### **Transdisciplinary Theme:**

Sharing the planet

#### **Central Idea:**

People interact with, use and value the environment in different ways.

#### **Lines of Inquiry:**

Natural and human made elements of the environment

Ways environment addresses people's needs

Importance of space in the environment

#### **Key Concepts:**

Function, Responsibility, Connection

#### **IB Learner Profile:**

Caring, Knowledgeable, Principled

Students concluded the unit under the theme 'Who we are'. They completed a task wherein they reflected on different aspects of their wellbeing. They shared which aspect of wellbeing would they improve and gave reason for the same.

They tuned into the unit under the theme "Sharing the Planet". They watched two videos and listed down what they observed. Based on the discussion they came up with the word "Environment." They framed a common definition of the term 'Environment'.

Students listed the different environments that they know of. They listed the various things they see in those environments and sorted it into categories like living and non-living, natural and man-made.

# Learning and Teaching-Month Review

Students also started the Design
Thinking process and discussed
the meaning of the terms 'design'
and 'thinking'. They watched a
PPT and shared why Design
Thinking is important. They then
looked at the different
environments that they had
listed and shared the problems
they see/face in those
environments.

#### **Transdisciplinary Language**

Students made transdisciplinary connections with nouns during the unit. They could list what they observed in different environments and sorted them into common and proper nouns.

#### **Transdisciplinary Math**

Students made transdisciplinary connections with odd and even numbers while sorting the different types of things in an environment.

They made connection to fractions while looking at the term 'element'. They inquired into what is a fraction and engaged in various learning engagements related.

# Learning and Teaching- Month Review

#### French:

Students, inquired about the days of the week, numbers from 1-30 and names of family members. They started learning the months of the year and revisited the concepts done so far.

#### Spanish:

Students learned numbers from 1-10, alphabet letters D, F, and vowels E, I, O, U, and related words with them in Spanish. They shared their reflections on their understanding of learner profile and ATL.

Students started reading simple sentences. They learned rhymes and phrases like-¿Cómo se dice (word/thing name) en Español? (How do say---- in Spanish?) and to reply the same in Spanish - Se dice (word/thing name) en Español, Vamos an Empezar- let us begin, Vamos a leer let us read, de nuevo- once again etc.

#### Hindi

Students were introduced to "বা" and "ঘ" akshar. They heard a story based on these letters and shared their views on the story. Students listed the new words that they came across in the story. They recited the poem 'Papa Ka paisa Gol'. They revised the letters from "k" Varg and were introduced to numbers through the poem "Dhobi Aaya,"

#### Telugu

Students were introduced to" ka vargam". They practiced these letters by reciting rhymes and listening to stories. They also identified objects related to ka vargam.

# Learning and Teaching- Month Review

#### **Dance**

Students practiced the dance movements learnt earlier. They had a discussion on the elements of dance, and they identified the elements they used during the class.

#### Art

Students explored the colours and the colour wheel. They discussed the importance and reasons for the placement of the colours on the colour wheel. They explored the warm and cool colours, the reason why they are called warm or cool colours and created artwork using the same.

#### PF

Students participated in various physical like walking, jogging, and running. They discussed the benefits and precautions to be taken while doing the physical activities.

#### Music:

Students inquired about tune and pitch. They practiced the song 'Sa Sing the Sunflower' and 'We Shall Overcome'. They identified whether the songs are in tune or not. They also explored various musical instruments.

#### Drama

Students worked on the following areas:

- Body Language Watching the characters and identifying their body language
- Exploring- Eye contact, body movement, gesture and voice of the character

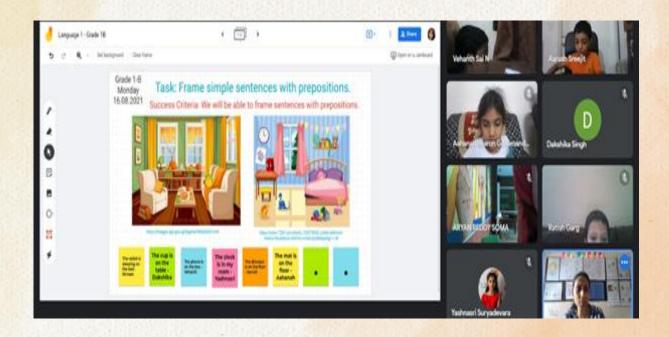

# Learning and Teaching-Month Review

# Learning and Teaching-Month Ahead

#### **Transdisciplinary** Theme:

Sharing the planet

#### **Central Idea:**

People interact with, use and value the environment in different ways.

#### **Lines of Inquiry:**

Natural and human made elements of the environment

Ways environment addresses people's needs

Importance of space in the environment

#### **Key Concepts:**

Function, Responsibility, Connection

#### **IB Learner Profile:**

Caring, Knowledgeable, Principled

#### **Unit of inquiry**

Students will continue with the Design Thinking process. They will list the problems they face in the chosen environment. They will use the 5 Whys strategy to find the root cause of the problem. They will come up with possible solutions and make a prototype that will solve the problem.

Students will find the meaning of the term 'needs'. They will inquire into the concept of needs and wants. They will list the various ways the environment addresses people's needs.

Students will inquire about the importance of space. They will find out why space is important and differentiate between 'space and 'place'.

# Learning and Teaching- Month Ahead

#### **Transdisciplinary Language**

Students will continue to explore more about common nouns and proper nouns. They will further inquire about the meaning and usage of questioning words through interactive learning engagements.

They will connect to the concept of 'homophones' while looking at the word space.

#### **Transdisciplinary Math**

Students will work on simple fractions. They will further inquire about word problems and problem-solving steps. They will solve problems related to addition and subtraction.

Students will connect to the concept of place value while inquiring about the word place. They will also calculate area in square units counting squares.

#### Hindi

Students will be introduced to the letters from "ch" Varg. They will read stories based on this concept and will revise the letters taught in the class previously.

#### French

Students will develop vocabulary related to the parts of the body, names of the vegetables and fruits.

#### Telugu

Students will be introduced to "Cha Varga". They will practice the same by identifying objects, listening to stories and reciting poems related to cha varga.

#### Spanish

Introduction of Spanish vowels A,E,I, O, U will be done. Letter Y will also be introduced. Introduction to Spanish dipthongs will be done along with numbers from 0-5.

# Learning and Teaching- Month Ahead

#### Spanish:

The students will look into and learn basic introduction- like saying their name, age, likes and dislikes in Spanish. They will explore the alphabets G, H, J, K, L, M, N, P, Q, R, S and words related to the same.

#### PE:

Students will be engaged with running drills such as butt kicks, high knees, front kicks, ankle drills, and side soufflé. They will discuss about jump and its variation.

#### Music:

Students will be introduced to rhythm, tempo, and notes of music (Sa Re Ga Ma Pa Dha Ni Sa). They will listen and learn the songs- 500 Miles, Ham Honge Kamiyab. They will listen to two pieces of music on an instrument and identify whether they are in rhythm or not.

#### Art:

The students will revisit the element- shape. They will be inquiring about 2D & 3D shapes, organic and geometric shapes. The students will explore the similarities and differences between artworks and the use of shapes.

#### Dance:

Students will continue with to do body warmup and body stretching movements. They will use the elements of dance to create dance movements.

#### Drama:

Students will work on the following areas demonstrating the attribute of being Thinkers/Communicators.

- Types of emotions through expression.
- Connecting body language and expression to real life.

## Happenings Month Ahead

Teachers Day Celebration: 4<sup>th</sup> September International Literacy day: 8<sup>th</sup> September Bonding Over Breakfast: 11th Sepetmber World Mindfulness Day: 13<sup>th</sup> September Hindi Divas: 14<sup>th</sup> September

International Dot Day: 15<sup>th</sup> September Student Led Conference: 18<sup>th</sup> September

International Day of Peace & World Gratitude Day: 21st September
