

## Grade PP1

Cambridge Assessment International Education Cambridge International School

April 2023

## Message from the Principal's Desk

#### Dear Parents,

#### Greetings!

Academic year 2022-23 has come to an end. Our students have worked hard inside the classrooms and participated in a range of learning opportunities outside as well. Often people around us talk about success and I wonder what it is. I read through these two short stories that answered these questions!

Once a man asked Socrates the secret of success- what is success? Socrates asked the young man to meet him near the river next morning. The young man came to the river next morning. Socrates was waiting for him. He asked him to walk with him towards the center of the river. When water got up to their necks, Socrates took the young man by surprise and ducked him into the water. The boy struggled to come up to the surface but could not do so. The boy tried his best, but Socrates was strong. He kept him inside the water till he turned blue. Just then Socrates took the boy out of water and the first thing he did was gasp a deep breath for air. Socrates then asked him- what did he want the most when he was inside the water. The young man replied - air. To this Socrates replied that when you want success as badly as you want air you succeed. There is no other secret to SUCCESS.

Once a sage came to meet a king. The king was very busy and hence the sage had to wait. After a while the gate keeper called the sage and took him to the king. Upon entering the hall, the sage took off his hat and bowed to the king. Just then the king too took off his crown and bowed to him. Seeing this the king's minister asked him why he did so because the sage was a common man while he was the ruler of the kingdom. To this the king replied that the sage took his hat off to show his respect to the king, which is a virtue. If he did not take his crown and show his respect it would mean that the king is less humble and has no virtue in comparison to an ordinary man.

#### Adapted from-

https://moralstories26.com/story-of-burning-d esire-socrates/

It is very important that we create this deep desire for success in our students, teachers and teams but also instill in them the virtue of humility and respect. Success with humility is very powerful. Humility helps you build trust with others. Humility helps learn. Trust and knowledge are two of the most important aspects of development and success. Humility reminds that there is someone behind us helping us and someone ahead of us guiding us.

As we look forward to the next academic year to unfold in June, 2023, we will continue to focus on greater success with humility and instilling core values in all our stakeholders to balance their inner as well as outer worlds to emerge as responsible global citizens.

Warm regards,

Anjalika Sharma

Head of School IBPYP

## Message from the PYP Coordinator's Desk

#### Dear Parents,

#### Greetings!

The summer break is a much-awaited break for students worldwide, and understandably, they want to make the most out of it. For most students, summer is typically associated with relaxation, visits to the beach, and hanging out with friends. However, students can also use this break to be productive and learn new skills and gain experiences.

The best teacher for children is to experience things. Summer break allows students to constructively plan their day and utilise this time to experience and learn. Starting from planning their own day, organising their belongings, and contributing to household chores to learning a new skill everything is vital for students to experience and learn.

As adults, the more opportunities we give them to solve their own problems, experience unfamiliar situations, enhance communication and social skills, be creative, decide for themselves etc more our children become successful independent individuals.

In our own family settings, as adults, we can provide them with an environment where they learn to take on small responsibilities and become independent. Tasks like preparing your own bed, arranging toys, watering plants, etc might seem like small chores but help them learn organizational skills and become independent.

Summer breaks are also a time when we can prepare students for the upcoming academic session. Reinforcing and helping children with the learnt concepts keeps helps in building a strong foundation. Discuss and help them identify their strengths and areas of improvement to set goals for this summer break. Once SMART goals are set accordingly, the concepts which need their attention can be revisited.

To enhance their reading skills and build a strong reading habit, a few ways could be allowing them to set their own reading corner, picking books from their favourite genre to start with, having family reading time, being inquisitive and asking about the books to know their comprehension and how far have they connected with the books etc. Initially, spending 15 mins every day without a miss can also do wonders.

Writing skills come naturally to some and for some children, it is a task. For children, the initial writing task needs to be fun. For toddlers, using thick crayons to thin crayons and then to pencils, writing in a tub filled with water or sand, using fingertips to understand formations, plucking leaves, sorting grains, etc is a great start. As they grow allow them to share their thoughts, and write whatever they wish to, something from their interest areas or experiences. At this moment it is important that we just encourage them to write. Then introduce them to re-read their own piece of written work, gradually, letting them know the spellings, use of vocabulary, sentence construction etc. It is a good idea to introduce them to different writing strategies, for instance, ARMS (Add, Remove, Move, Substitute), and COPS ( Capitalization, order, punctuation and spelling).

Mathematical concepts are best practised when associated with real-life connections. Asking children to calculate the cost of their shopping, associating time with their own schedule planning, helping them maintain the waking and sleeping hours, talking about speed distance from one place to the other while travelling etc are all great ways to build their mathematical concepts.

Sharing our life experiences, travel experiences about different places, and initiating talks about the environment, plants, animals, geographical locations, places, culture, arts, music etc is also a way to help them learn new things. It also helps in bonding with them.

In conclusion, although summer break may be associated with relaxation and entertainment, children should be provided with opportunities to remember the value of the break and to build their future.

Wishing a very memorable and enriching summer break!

Regards, Durgesh Jadhav PYP Coordinator

## **Core values**

Students took part in various learning engagements like watching videos, listening to stories and reading books related to the core value for the month, 'Integrity'. Students reflected and discussed how they would practice integrity at home, in class, while working individually and in groups.

## **Global Leadership**

The students co-constructed their unit-end tasks with their peers. They demonstrated attributes of the IB learner profile and approaches to learning during their classroom learning engagements by actively participating in various learning engagements and also by reviewing the essential agreements of the class. The students also conducted assemblies.

### Mindfulness and Well - being

Students practised mindful breathing mindful usina and movement five-finger starfish meditation, volcano breathing, hissing breathing, balancing self, stretching, squirrel pose and heartbeat exercise. They practising enjoyed а sense of awareness by creating beautiful mandala art that enhanced their focus and concentration abilities. Students further discussed the value of gratitude.

Students discussed emotional regulation in the well-being session. These sessions were intended to introduce and enhance the awareness of emotions. Students shared their thoughts about emotions and how they manage their own emotions.

## **Holistic Excellence**

As a part of holistic excellence, students continued to make connections with the attributes of the learner profile during learning and teaching. They reflected on various approaches to learning developed and demonstrated during this term. Students enjoyed the reading sessions to further enhance their reading skills.

### Stakeholder engagement

As the academic session came to an end, teachers, parents and students interacted during the three-way conference to discuss the academic progress of their child. They discussed the strengths as well as areas of improvement. They suggested follow-up steps to further support the learning needs of the child.

The "All-Hands Meet" was conducted where the school achievements and long-term plan were shared with the staff followed by the felicitation of the staff members for their achievements.

We had a session with Dr. Rammohan Reddy, senior а consultant in Trauma & Orthopaedics, lower limb arthroplasty, and sports injuries with 30 years of dedicated patient-centric practice, and with Dr. Mallikarjun, a Robotic Surgeon and Urologist for the staff's well-being.

We had an interactive session with Dr.Divya Devalupally on 'The Teenage Brain ' and 'Dealing With ADHD in the Classroom '. She also addressed the staff on work-life balance which included the professional work ethics and attitudes.

## **Professional Development**

#### **Reading Sessions:**

#### Learner Agency:

Implementing Agency sessions focused on ways to promote agency in students, the relationship between the teacher and students becomes a partnership, and students with a strong sense of self-efficacy bring a stronger sense of agency to the learning community. We shared how the students take initiative, express interest and wonderings and make choices to achieve their goals.

#### Learner Profile:

The attributes of the learner profile represent a broad range of human capacities and responsibilities that encompass intellectual, personal, emotional, and social growth. The development and demonstration of these attributes are foundational to students becoming internationally minded, active, and caring community members who respect themselves, others, and the world around them.

We discussed how the students demonstrate and reinforce the attributes of the learner profile in their daily life by sharing examples that include as a part of the school curriculum, through interactions in a variety of learning spaces, through school events, and at home and in the wider community. We shared how all the members of the learning community play an important role in valuing, appreciating, and demonstrating celebrating the learner profile in action. We also shared a few examples of how these attributes are connected to learning goals, actions, self-assessment, etc.

As a team, we read and reflected on how the attributes of the learner profile are connected to transdisciplinary learning. We shared our perspectives on how the attributes of the learner profile are developed and revisited through the units of inquiry through subject-specific investigations and how are they documented on PYP planners as a part of the collaborative planning process.

#### **PYP Exhibition:**

The PYP exhibition is the culminating, collaborative experience in the final year of the PYP. During the session, we discussed how the exhibition is student-initiated, designed, and collaborative in nature. We shared ways students explore multiple perspectives, be independent learners, and be responsible for their learning to take action.

## **Professional Development**

#### **Concept-Based Learning:**

Concept-based inquiry is a powerful vehicle for learning that promotes meaning and understanding and challenges students to engage with significant ideas. Concepts are powerful, broad, and abstract organizing ideas that may be transdisciplinary or subject based. Concepts help to build understandings across, between, and beyond subjects. We discussed and shared various learning engagements that worked well in our classes to understand the same.

#### **Action in PYP:**

Students take action in response to their inquiries or motivation to make a positive difference and bring about positive change. As an integral part of the learning process, action can be embarked upon at any point and can take many forms, depending on individual development, learning, and experiences. It may be individual or collective, small or large scale, and may take place at home, at school, or in local or wider communities.

We shared ways students make appropriate choices and take responsibility for personal learning and actions, working collaboratively with teachers and peers to plan, present, reflect upon, adjust, and contribute to collective action, contributing to discussions and learning experiences, raising awareness of opportunities for taking action with peers and/or family, getting involved in class, school, and community projects, considering and acting on factors that contribute to personal, social and physical health and well-being with few examples.

#### Inquiry:

Inquiry is purposeful and authentic. It incorporates problem-solving and supports students in achieving personal and shared goals. Inquiry extends students' learning when the exploration of initial curiosity generates new questions and wonderings. We collaboratively discussed various learning engagements that worked well in the classrooms to know the importance of experimenting, making connections between previous learning and current learning, collecting data and report findings, researching, and seeking information, and solving problems in a variety of ways. We also shared our perspectives on how an inquiry helps to facilitate the development of the IB learner profile and supports students to become critical and creative thinkers, researchers, collaborators, and communicators.

#### The Early Learner:

Teachers support students in developing social-emotional competence because this connects to children's emotional well-being and their ability to adapt to new environments and form successful relationships throughout life. We discussed how the teachers support learning by planning and giving uninterrupted time for play, building strong relationships with students and their families, creating and maintaining responsive spaces for play, and offering many opportunities for symbolic exploration and expression with real-life examples.

## **Professional Development**

#### **5 Developmental Pillars Of 'The Happy Minds' Model**

We had a session on the five developmental pillars by the core members team.

The Gaudium Happy Minds' Model rests on 5 developmental pillars, which represent our belief that- Holistic Excellence in learning, teaching, and leading is achieved by imbibing 5 core values and implementing a well-defined mindfulness and well-being programme involving all stakeholders thereby ensuring that our global leaders are ready to take the quantum leap into the future.

#### Holistic Excellence:

Holistic Excellence focuses on providing a joyful learning environment where every child engages in exploring, experiencing, experimenting, and exhibiting their learning which encourages them to take action and inculcate leadership qualities to make a difference to themselves and others.

We shared and reflected on how the students know the importance of reading books and shared their reflections, life skills activities that went well, and the suggestions if any to be made for the next academic year 2023-24.

#### **Core Values:**

Our 5 core values Respect, Empathy, Integrity, Perseverance, and Gratitude are essential for all to balance their inner and outer world in the pursuit of happiness. We discussed the core values calendar and the reflections shared by the stakeholders.

#### Mindfulness and Well-being:

Our mindfulness and wellbeing programme is an integral part of our daily life at school and provides an enriching experience by enhancing the intellectual, moral, emotional, social and physical development of each student. We revisited the mindfulness curriculum and the calendar followed by sharing perspectives.

#### **Stakeholder Engagement**

Students, Parents, Teachers, staff and the local community are stakeholders who meaningfully connect and collaborate to learn, grow and add value to the school culture. We discussed if any event/activity is to be added as a part of the stakeholder engagements followed by reflections.

#### **Global Leadership**

It equips our students with confidence, skills and competencies that leads to self-clarity, enhances interpersonal skills and fosters positive change in the community using the levers of innovation. We shared the importance of UNSDG and the IB leadership capabilities and also discussed the students'-initiated actions and the innovative ideas that the students came up with during their design thinking process.

### **Unit of Inquiry:**

How we express ourselves

### **Central idea**

Play facilitates expression, feelings, ideas and new understanding

### Lines of inquiry

Purpose of play

•Imaginative use of materials and objects

Role of toys over time

### •Key concepts:

Function, Connection, Change

### •Related concepts:

Imagination, Connectivity, Communication

### **Unit of Inquiry:**

The students continued to explore the unit of inquiry "How we express ourselves" and learn about different types of toys. They shared toys made with different materials. Further, they used their imagination to create objects.

The students further inquired into toys 'Then and Now', and how their parents and grandparents played in their childhood. They shared how were they similar or different. They predicted how they would play with toys in the future.

The students shared their learning through the end-of-unit assessment tasks demonstrating their conceptual understanding.

### **Transdisciplinary** Language:

The students practised antonyms and synonyms, 4 w's, predictions, and singular and plural words through various learning engagements. They further punctuation revised marks such as .?! and the use of uppercase letters.

Thestudentshadreinforcementofconceptslearntsofarthroughaoflearningengagements.

### **Transdisciplinary Mathematics:**

Students revisited number formation, sequencing numbers from big to small and small to big, greater than lesser than concept through flash cards and creating 3-D patterns, shapes, skip addition, counting, before, after and between numbers. Students re-visited the concepts learnt so far with a range of learning engagements.

### Dance:

Students were introduced to next new hand and leg movements for the dance forms – Freestyle and HIP HOP. They practiced the same on count of eight with music.

### Art:

The students worked on their assessment by choosing an art form of their choice to create a daily event happening in their life. They revisited the concepts learnt like lines, shapes and colours and different types of art like drawing, colouring, forms printing and tear and paste along with clay modelling.

### Drama:

Students worked on the following areas demonstrating the attribute of communicators/inquirers for the month of April.

- Identifying the characters
- Use of face mask

### PE :

Students were engaged in the lines of inquiry through the different active learning engagements. They learnt the benefits of catching and throwing.

### **Music**:

Students revisited musical instruments, natural and artificial sounds and beat. They also revisited all the songs learned in class.

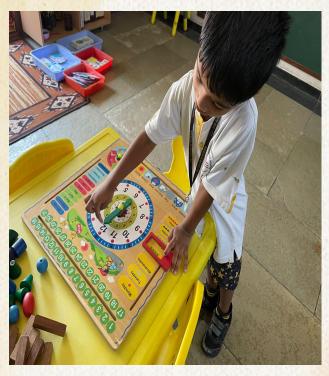

## Happenings Month Ahead

### School reopening dates – Nursery to 5

Grade 3, 4 and 5 - Wednesday, 14<sup>th</sup> June 2023

Grade 1 to 2 - Monday ,19<sup>th</sup> June 2023

Grade Nursery, PP1 and PP2 – Wednesday, 21<sup>st</sup> June 2023
