July, 2023

# Message from Head of School

Dear Parents,

**'to persist  
one teaspoon  
at a time,  
the rain turns  
mountains  
into valleys..'**

July has ushered in the much-needed rains after a terrific summer.

The environs are exploding with greenery everywhere you cast a glance and the school campus resembles a hill resort with its expanses of green spaces and the pattering rains among the trees.

We are raising a generation of children in whom we want to imbue flexibility and adaptability. We believe our students must be Resilient if they must become Global Leaders. One such aspect of adaptability in all our lives is how quickly, staff and students these days are reverting to online classes whenever the need arises, in recent times owing to inclement weather.

They say all experiences in life teach us significant lessons- our comfort with synchronous online learning is one such tremendous upshot of the Pandemic times.

The flurry that proceeded in school over the Student Council Elections was exciting for all of us. The Election Commission comprising of Senior faculty from across the curricula painstakingly prepared all the intricate details of the nomination and e-voting procedures. We heard the voices of our aspiring young leaders telling us about their ideals, their concept of handling 'power' and 'position' and how they would be 'the voice of their peers'.

The seeds of democracy are sowed in school.

An important attributes of our Happy Minds Model is Holistic Excellence where, one of the things we strive for is 'excellence in leading'. This includes Innovation, Action & Leadership.

Through the various Inter House Competitions, both sports and cultural, we bring out the 'building of skills' under the pillar of Global Leadership embedded as a credo in our school philosophy. The recent wins in the various competitions held inter-house are the precursors of 'Best House' Award at the end of the year. The creativity and resourcefulness on the one hand and the thinking on their feet of our students almost always leaves us spellbound!

We are grateful for your enthusiastic response to the overnight and day -long educational excursions of our students in this term and we always look forward to your support of our endeavours.

Have a safe and enjoyable monsoon.

Ms. Sudeshna Chatterjee  
Head (Middle & High School)

# Message from MS-Associate Coordinator

## Learning from the Rain: Life Lessons We Can Embrace

Dear Parents and Students,

This month, we have witnessed the pleasure of falling rains and experienced the problems that come with rains. As we marvel at the beauty and necessity of rain, it becomes clear that nature has a multitude of lessons to teach us. Rain is not only essential for the survival of all living beings but also holds valuable insights that can help shape our lives.

Rain teaches us about the importance of adaptability and resilience. Just as plants adjust to the changing weather patterns, we must learn to adapt to various situations and challenges that come our way. This month, we adapted to online classes as the situation demanded. By embracing change and bouncing back from setbacks, we grow stronger and flourish, just like the plants that thrive after the rain.

Raindrops do not compete; instead, they come together to form a mighty force. Similarly, rain teaches us the significance of unity and cooperation. We can achieve more when we work together, support one another, and celebrate each other's successes. In our classrooms and communities, let's foster an environment of collaboration and understanding.

Amidst a scorching summer, the arrival of rain brings relief and joy. This reminds us of the importance of gratitude and appreciation for the little things in life. We can learn to value not just the significant achievements but also the simple pleasures, such as a good book, a warm smile, or a friendly gesture.

Too much rain can create havoc. Rain teaches us about patience, endurance and being prepared. Some things take time to happen, and success may not come overnight. By staying patient and persistent, we can achieve our goals and dreams. After the rain, nature flourishes, and new life emerges. This illustrates the importance of growth and continuous learning. As educators, we can instill a love for learning in our students and encourage them to explore new ideas and interests.

As we witness the rain's dance with nature, let us remember the profound teachings it holds. By embracing adaptability, unity, gratitude, patience and growth, we can lead more meaningful and enriching lives. Let these lessons from the rain guide us in our journey of learning and growing together.

Anita Sreejit  
CBSE Middle School Associate Coordinator

# Holistic Excellence

## Planning a Party

Students worked in groups on the theme-‘Plan a Party’. They collected data on their chosen themes (such as favourite food, favourite drink, favourite dessert, veg/non veg, favourite activity) and represented the data using tally table and pictograph. This way they were able to practice the concept taught in class and also practiced group work where they delegated responsibilities and worked together.

## Art in fractions

Students of Class VII used fraction cutouts to create beautiful designs. They used their creativity to integrate art and math.

# Holistic Excellence

## Understanding Quadrilaterals

### 1. Trapezium

Engrossed in the Subject Enrichment activity for Understanding Quadrilaterals. Here they are making a trapezium using 3 scalene triangles which are congruent.

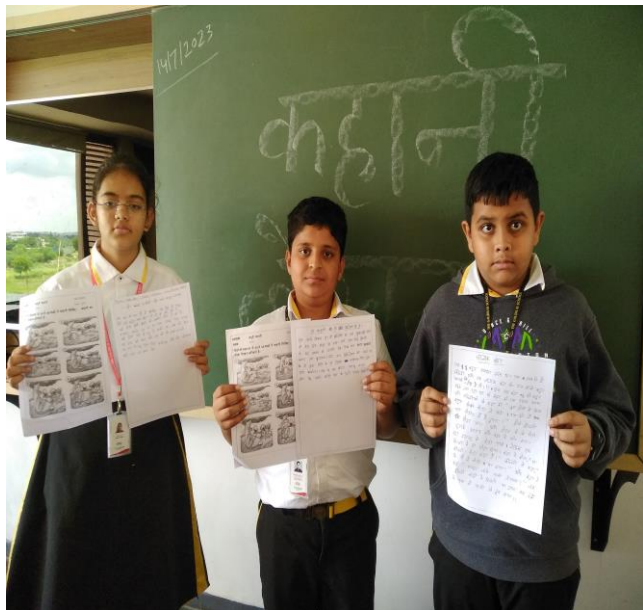

### 2. Activity on sum of exterior angles of any polygon is $360^\circ$

students have drawn quadrilateral and pentagon then extended all sides to form exterior angles, later students cut the exterior angles and arranged cut pieces to form a complete angle.

## CONSERVATION OF NATURAL VEGETATION AND WILDLIFE

In relation to the Geography lesson: Land, Soil, Water, Natural vegetation and Wildlife, students of Grade VIII CBSE have done a poster making group work with appropriate slogans. They discussed and presented their understanding on the interrelation and interdependence of the various components of nature.

Students also analyzed how certain human factors, such as deforestation, land degradation, pollution, etc. has posed a danger to ecological balance. With suitable captions and slogans, they put forward the measures to be taken up for conservation and protection of natural vegetation and wildlife. A good understanding of the topic and teamwork was exhibited during the presentation which was appreciated.

# Holistic Excellence

## Discovering Basic French Vocabulary

Playing a basic French vocabulary video in class opens up a treasure trove of new words and phrases for students. From common greetings and expressions to essential everyday items and activities, these videos introduce foundational vocabulary in an immersive and contextualized manner. As students watch and listen to the content, they begin to make connections between words and their meanings, fostering a deeper understanding of the language.

## Enhancing Pronunciation and Listening Skills

French pronunciation can be challenging for learners, but videos provide an excellent opportunity to improve pronunciation and listening skills.

## Title: Bringing "Dusk" to Life: A Student-Enacted Masterpiece in the Classroom

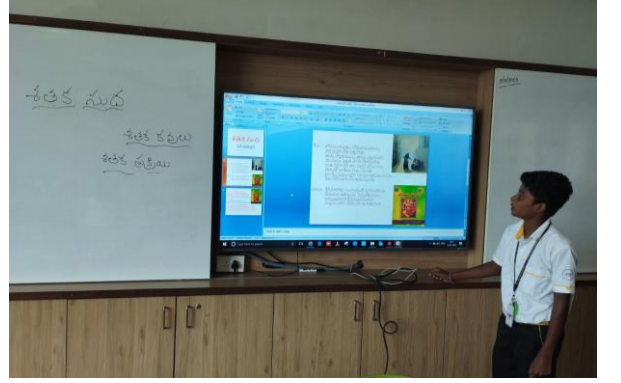

"Dusk," a thought-provoking and evocative literary masterpiece written by renowned author Saki, has long captivated readers with its blend of wit, satire, and dark humour. The performance was captivating from the very beginning and students' dedication to their roles shone through, as they skilfully captured the essence of their characters. The students' dedication, passion, and hard work breathed new life into

Saki's timeless tale, making it relevant and relatable for a new generation. The emotional impact of the performance resonated with everyone present, leaving a lasting impression on both the performers and the audience. This endeavour showcased the incredible potential of using drama and creativity to foster a deeper understanding of literature, proving that the magic of storytelling can transcend the boundaries of words on a page and touch hearts in unexpected ways.

## Telugu Grade- 7 Class Activity Helping Nature

విద్యార్థులు ఇతరులకు సహాయం చేయడం వల్ల కలిగే ఆనందం గురించి తెలుసుకుంటారు. అలాగే సహాయం చేయకుండా అడ్డుపడేటటువంటి వారి గురించి కూడా తెలుసుకుంటారు.

## బుర్రకథ ప్రదర్శన (Burrakatha )

విద్యార్థులు తరగతిలో పోయబుల్లాఖాన్ పాఠ్యభాగానికి సంబంధించి బుర్రకథను ప్రదర్శించారు. ప్రదర్శనలో ధనదీప్, సహస్ర, ద్రితి చక్కగా పాల్గొన్నారు. బుర్రకథ ఒక జానపద కళారూపం. ఇందులో పల్లెపదాలు, వంత హాస్యాలు, బిగువైన కథనాలు, పద్యాలు, పాటలు అన్నిటినీ కలుపుకొంటూ సరదా సరదాగా సాగిపోయే కళారూపం. పరిమితమైన ఆహార్యంతో, ఆడుతూ పాడుతూ హాస్యోక్తులు పలుకుతూ జన సామాన్యానికి చేరువగా వెళ్లే కళారూపాలలో హరికథ మొదటిది అయితే బుర్రకథ రెండవది. హరికథలో కొంత సంప్రదాయముద్ర ఉండి బుర్రకథ పూర్తిగా జానపద కళారూపం.

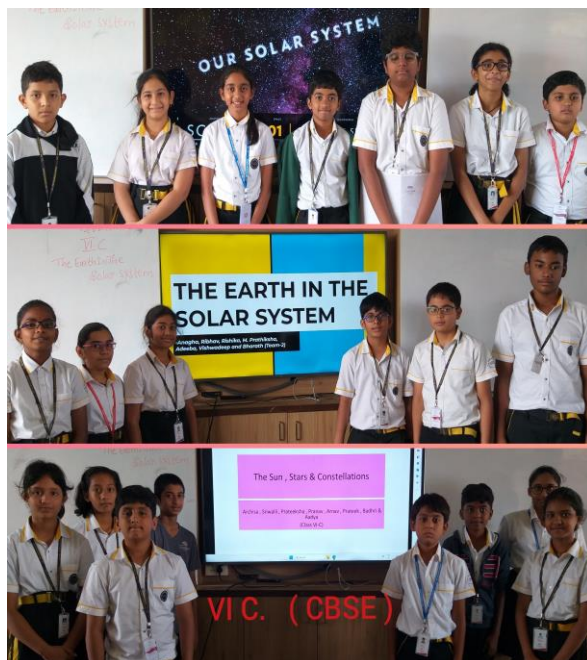

# Holistic Excellence

## Topic- Earth in the solar system

### Activity- pair

Students represented themselves as 8 planets in the Solar system and presented in the class. They also included the Sun, Moon and Stars in their enactment. This had made their learning easy and helpful in understanding the concepts well.

# Holistic Excellence

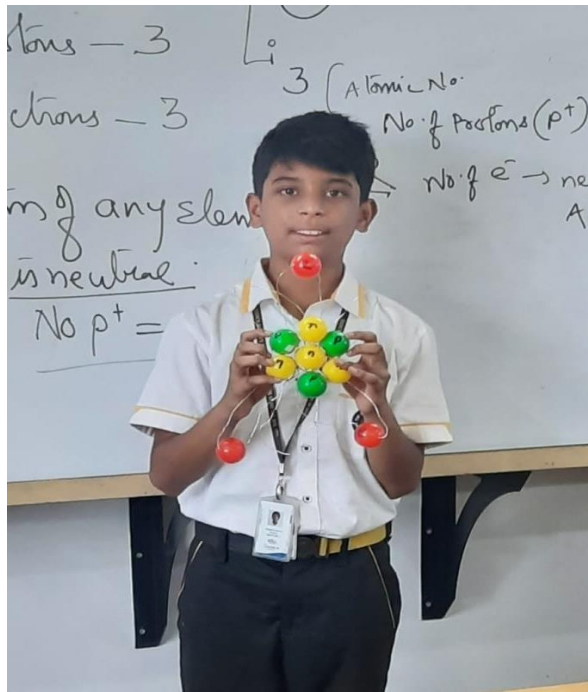

## Demonstration on food tests

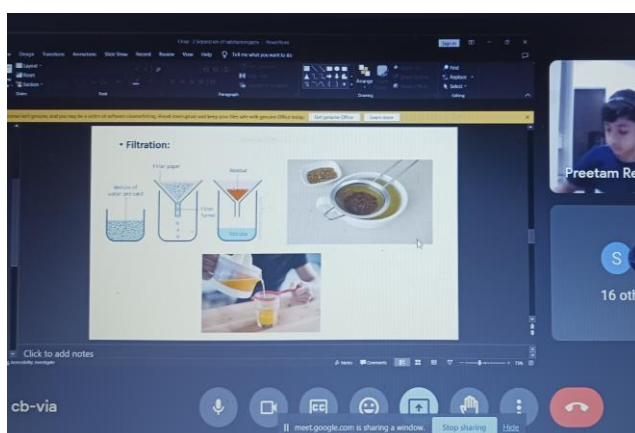

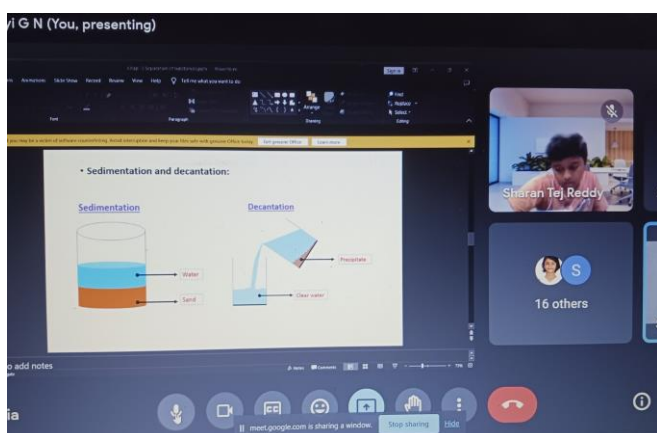

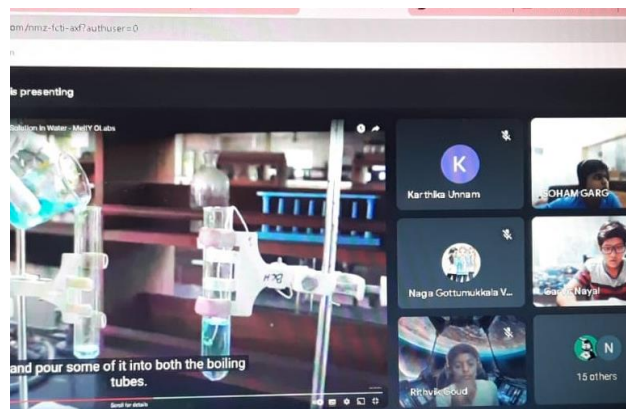

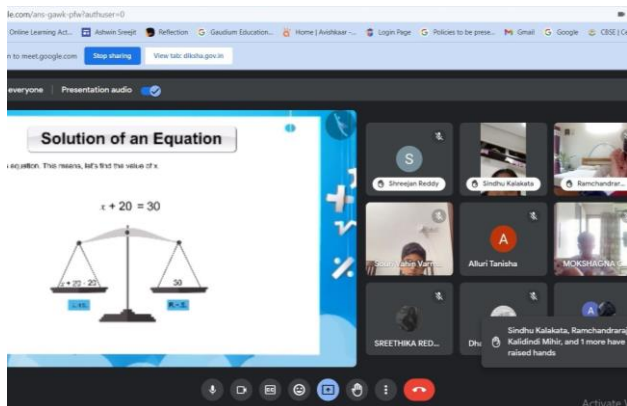

Learners of Grade VI, conducted qualitative chemical tests to check the presence of Starch, Proteins and lipids in the given food samples and Tabulated their observations in their Lab records.

## Experiential learning

Under the teaching and learning process of Chemicals and Chemical changes, Learners were introduced to Atomic structure by using model making, chart presentations. Role play to introduce 1 to 20 Elements and Valences of different elements, through Valence cards and taught the differences about the physical and chemical changes through Lab activities.

# Holistic Excellence

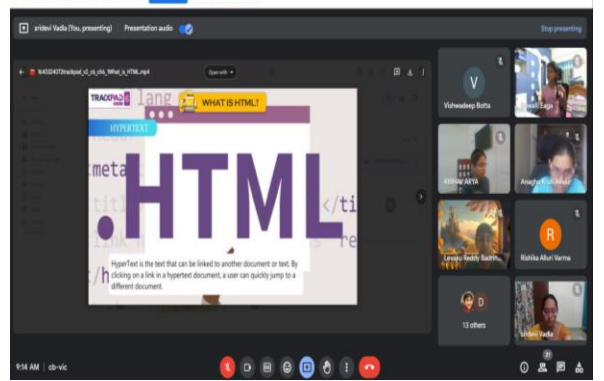

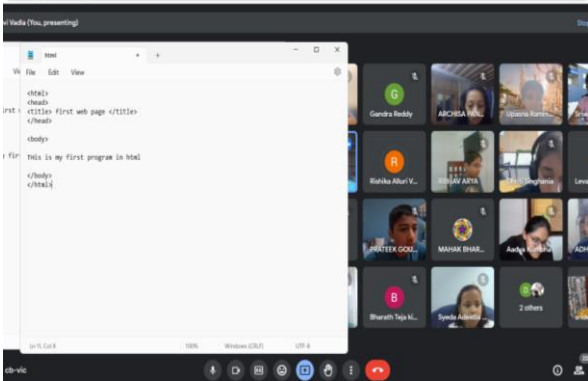

## Online Classes

Due to heavy rains and flooding in several areas during the last week and in compliance with that the government directive, announced the School to remain closed for physical classes on 26th & 27th July. However, the school was committed to provide an uninterrupted learning and online classes was proceeded as per the regular timetable.

# Holistic Excellence

## ICT skills

ICT skills are abilities that help students understand and operate a wide range of technology software. This can include helping students with tasks on computers, such as making video calls, searching on the internet.

Grade VI -Students learning The Hypertext Markup Language or HTML which is the standard markup language for documents designed to be displayed in a web browser. Students are understanding the meaning and structure of web content. Students used technologies such as Cascading Style Sheets and scripting languages such as JavaScript to create webpages.

# Holistic Excellence

## Experienced Learning using LEGO EV3 Mindstorms

The learners from Grade 6 were introduced to the EV3 Mindstorms kit which is user friendly and a do-it-yourself kit. The learners have done extensive research about the kit, found various electronics and mechanical components in the kit, and how to identify each component and function of the components in the kit. They explored and understood the use of each component and constructed the basic robots and programmed them to move different directions using a GUI (Graphical user interface) based programming platform. The learners showed so much interest and excitement to build the robots using LEGO and to give a life to them artificially through programming.

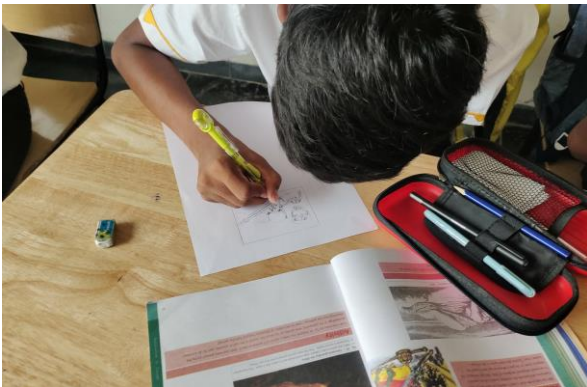

# Holistic Excellence

## Refractive Index of Glass slab

The students of Gaudium Class XII were investigating to find the refractive index of a given glass slab. For this they had to explore the construction and working of traveling microscope. They had to adjust the height of the microscope to find their observations clear and distinct. They had enjoyed the investigation and successfully found the refractive index of the glass slab.

## Art integrated pedagogy:

It was an Art integrated strategy used to help students of grade 10 X understand the principles that the liberal nationalists stood for, like peace and constitution as against the conservatives who believed in strong monarchy and military.

**Future Letter to Myself**

THE GALDIUM  
SCHOOL

Imagine the world in 2030 and write a letter to your future self. Be sure to mention things that you think your future self would probably be doing and experiencing in daily life.

Place Hyderabad  
Date 24/7/23  
Dear Vishnu priya  
Danta

It feels a little strange to be writing a letter to my future self, but it's also, rather exciting!

At present I am very interested in Artificial Intelligence, coding and am sure this is a hobby that has proved beneficial, and I am now skilled at AI & python

So, tell me have things changed a lot? Do we still have a lot of appliances which ~~are~~ need human command or are we using smart appliances

Has Artificial Intelligence proved to be the best & easy way of life?

You must be so used to smart home, smart appliances / gadgets etc. while we struggle to drive for long or clean house etc.

Is our Pet Shiro doing well or have you replaced it with a robot dog?

Ha! Ha! It's so much easier, right?!

How is your preparation for the new job?

Must be nice to be living a easy & smart life where there is no need to struggle for things

Have you changed the house to a smart house or are you still washing clothes in the washing machine or using a robot?

Am sure things have turned out well for you in 2030.

Great to know that AI has improved allot & helped in doing everything.

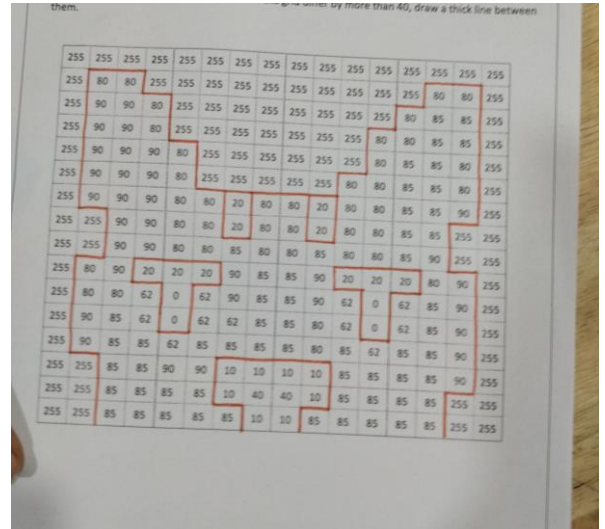

It's been nice writing to you hope you are doing the job which we wanted to.

Hope this letter brings back old memories.

Sincerely,  
Vishnu priya

## AI XI Pixel Art

Given a grayscale image, one simple way to find edges is to look at two neighbouring pixels and take the difference between their values. If it's big, this means the colours are very different, so it's an edge. The grids below are filled with numbers that represent a grayscale image. See if you can detect edges the way a computer would do it.

## AI IX A B future letter to self

Imagine the world in 2030 and students of grade IX AI wrote a letter to their future self. They have mentioned things that they think their future self would probably be doing and experiencing in daily life.

# Holistic Excellence

## Projectile Motion:(Babubali and Neeraj Chopra) Physics Facilitator: Ranjith Kumar Kasarla Class: XI B

To introduce the concept of projectile motion Physics the students of Gaudium XI B were given an opportunity to watch the clip of **Babubali 2** movie, where the hero Prabhas tries to reach the top of the Fort with his soldiers. He uses a palm tree to do that. Palm tree is being bent up to a certain angle so that on releasing the tree Prabhas along with his soldiers flies in air in a parabolic path and jumps onto the fort.

Here while they fly in air, they possess projectile motion, where the student has to focus on the shape of the path they fly.

Students were being asked questions and they had to find the factors on which the hero Prabhas had to focus to reach the top of the fort. From their answers the topic Projectile motion is developed further.

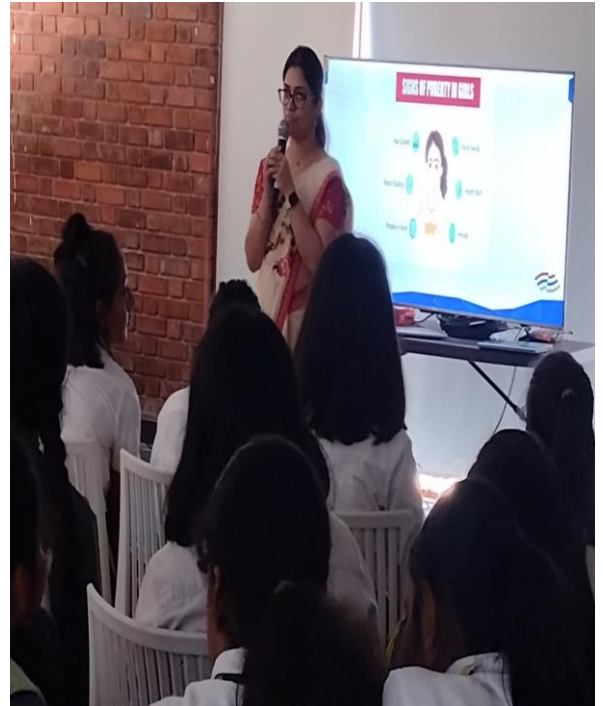

Apart from movies, even sports and games were taken to demonstrate projectile motion. The students were given an example of Javelin throw where our Indian player Neeraj Chopra who won Gold medal in the last Olympics by throwing the Javelin through a distance of 87.58 m. The students were made to explore the factors that helped Neeraj Chopra to throw the javelin.

# Mindfulness and Well being

## Session on Puberty

In an empowering effort to educate and guide, Our school organized a puberty session, providing a safe and inclusive space for both girls and boys to learn about their changing bodies and minds. The initiative sparked candid discussions on the physical transformations, emotional shifts, and the importance of understanding and respect for oneself and others in this critical phase of growth.

# Mindfulness and Well being

## Awareness session on Cyber security

A proactive step towards cyber awareness by the school who hosted a comprehensive digital safety session, educating students on the potential pitfalls and protections in our increasingly interconnected world. The session empowered students with knowledge on secure online practices, privacy management, and responsible digital citizenship, thereby nurturing a smarter and safer online community.

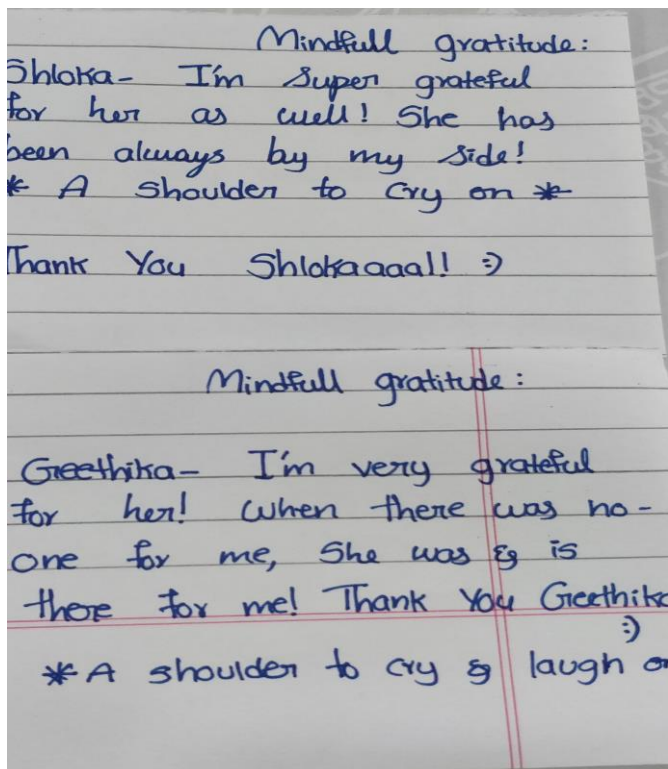

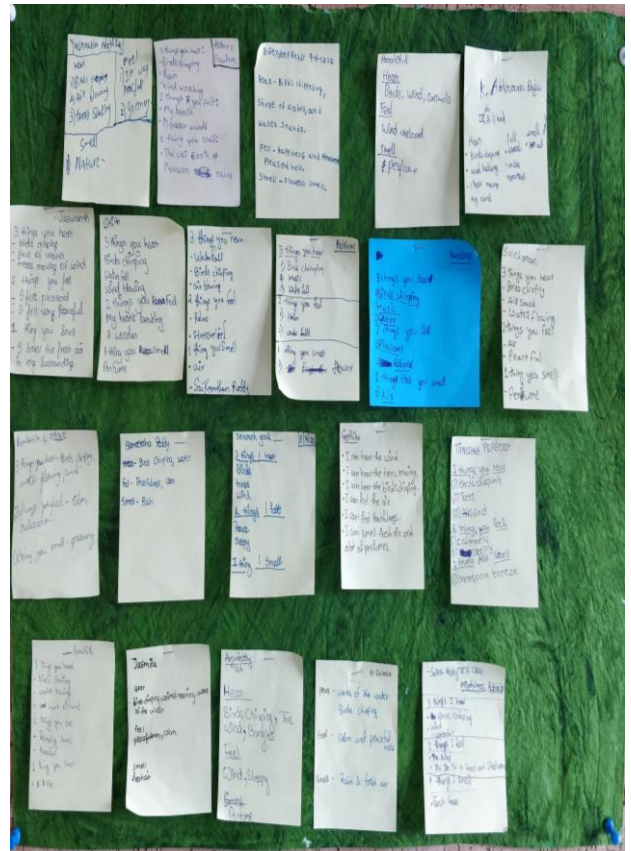

# Mindfulness and Well being

## Mindful music

Mindful music, with its enchanting melodies and soothing rhythms, has emerged as a powerful tool to cultivate a sense of mindfulness and inner calm. It serves as a conduit to escape the noise and chaos of everyday life, allowing individuals to embark on a profound journey of self-reflection and introspection. Students listened to the music and wrote about

- 3 things they heard
- 2 thing they felt
- 1 thing they smelt

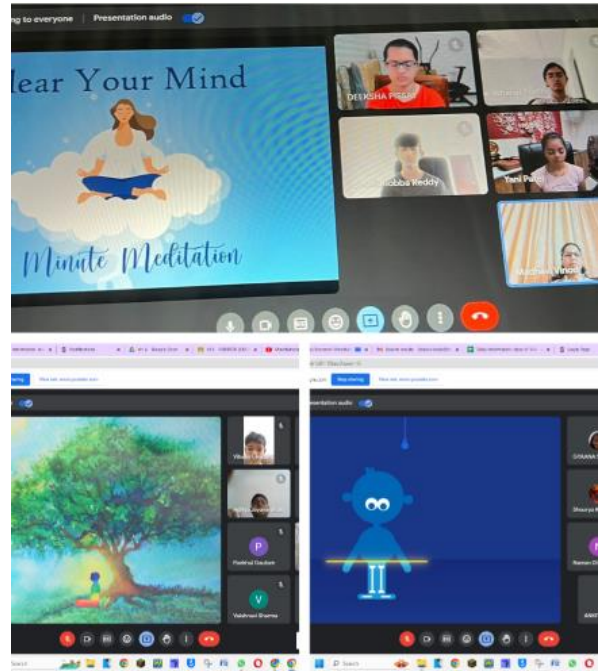

## Mindful gratitude

Mindful gratitude helps us appreciate those lovely moments in life, whilst at the same time enabling us to make more of those lovely moments for others. Students of CBSE IX A thanked their friends by writing a gratitude note and sharing with them on July 15th.

# Core Values

## Embracing Mindfulness in Our School Assemblies: Nurturing a Connected and Flourishing Learning Community

Our school assemblies are more than just routine gatherings; they are essential opportunities for fostering a sense of unity, sharing important information, and building a positive school culture. We begin each assembly with a mindful moment, such as a brief breathing exercise, sets a calm and focused tone. By encouraging everyone to let go of distractions and be present, we create an ideal atmosphere which encourage presence, empathy, and focus, we foster emotional well-being, positive connections, and a deeper sense of belonging.

As we continue to embrace mindfulness in our assemblies, we cultivate an environment where students, teachers, and staff can thrive academically, emotionally, and personally.

# Core Values

## **Assembly on MUN: Diplomacy and Global Engagement:**

Our virtual assembly on Model United Nations (MUN)—an extraordinary platform that allows you to explore global issues, develop diplomatic skills, and engage in meaningful debates. The senior student participants of MUN encouraged the students in school to become a part of MUN as it offers a transformative experience, enabling one to become global citizens and future leaders.

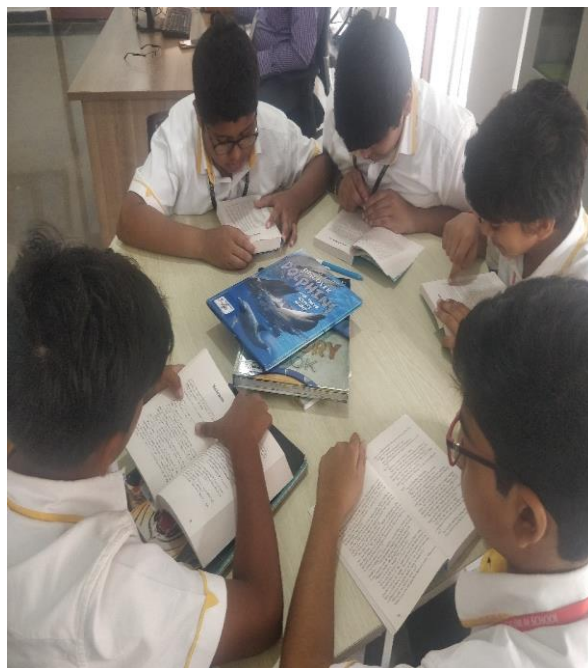

To embrace the opportunity to engage in diplomatic discourse, hone skills, and make one's voice heard on the global stage. Through MUN, everyone can develop a deeper understanding of the world, cultivate empathy, and contribute to finding solutions to pressing global challenges.

# Core Values

## **Cultivating a Reading Culture: A Successful Reading Program in Our School**

In an increasingly digital age, cultivating a love for reading among students has become more important than ever. Recognizing the critical role reading plays in academic and personal development, our school initiated a comprehensive reading program designed to encourage and foster a reading culture among students. The primary objective of our reading program was to create an environment that promotes

reading for pleasure and enhances literacy skills among students. By developing a love for books, we aimed to improve students' comprehension, vocabulary, critical thinking, and overall academic performance. Our reading program has proved to be an overwhelming success, fostering a genuine love for reading and have nurtured lifelong learners who approach the world with empathy, curiosity, and a thirst for knowledge. The positive impact of this program will undoubtedly continue to resonate within our school community for years to come.

# Core Values

## Math Assembly -Don't Give up

"Winners are not people who never fail. They are people who never quit." As quoted above, we in Gaudium had a special assembly only to insist the theme on 'Don't Give-up', which helped our students to project their talents through various events like dance, skits, songs and fun facts to make the audience realise that always there is a solution for every problem than giving up.

# Global Leadership

## Triumph in Taekwondo: Prisha's Unwavering Spirit Shines at the International Championship

Our team of Taekwondo students embarked on their journey to compete in the highly prestigious International Taekwondo Championship in Thailand. Prisha from grade 7E CBSE won Gold in the championship on 14<sup>th</sup> and 15<sup>th</sup> July in Thailand by representing our school and India.

After months of rigorous training, sweat, and determination Prisha honed her techniques, mastered the intricate movements, and polished her skills to perfection. Prisha faced an array of talented competitors from diverse backgrounds, each possessing their unique strengths and techniques. Her success in the International Taekwondo Championship stands as a testament to their unwavering spirit, relentless training, and passion for the martial art.

# Global Leadership

## Leading the Pack: Our Victory at Hyderabad Cup Taekwondo Championship

We are thrilled to announce our triumphant victory at the recently concluded Hyderabad Cup Taekwondo Championship by Aarav (40Kgs) from VII E CBSE and Arnav (45Kgs) from VII D CBSE. Securing first place among a roster of skilled competitors was not an easy task but they won gold medal for under 14 boys' category.

The road to this win was marked by relentless training, endless hours of practice, and a spirit that refused to surrender. Every kick, every block, every punch was the result of their unyielding commitment to the sport. Arnav and Aarav stood tall, demonstrating a blend of skill and mental fortitude that culminated them to take the top spot.

# Global Leadership

## Leadership Matters: Virtual Assembly on Student Council Elections:

Our school assemblies include the importance of student council, which serves as a bridge between students, teachers, and school administration. The were explained. The students are explained the process of nominating oneself or others for student council positions, including the submission of applications and meeting eligibility requirements,

such as communication, empathy, integrity, problem-solving, and teamwork. The students are encouraged to showcase their vision, goals, and ideas for improving the school community, fostering a sense of connection and trust among their peers. Everyone has the potential to make a positive impact within our school community, whether as a candidate, a voter, or an engaged participant, we can shape a brighter future for our school and society.

# Global Leadership

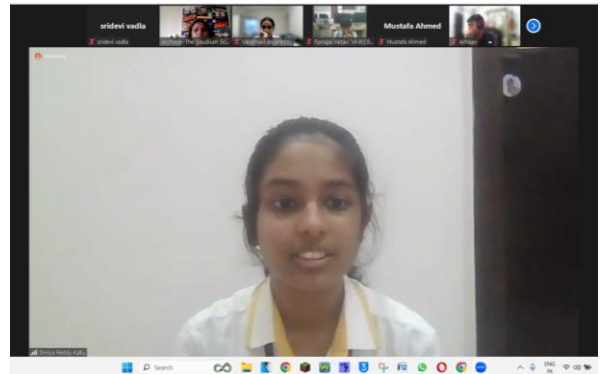

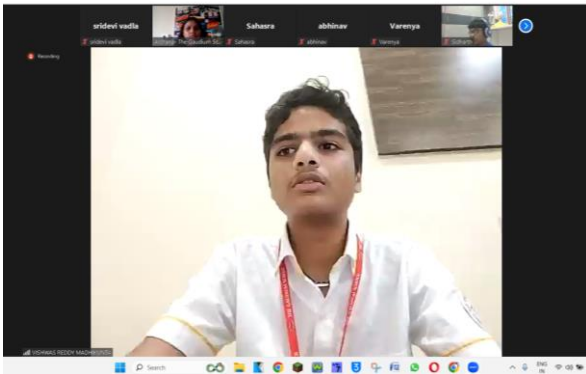

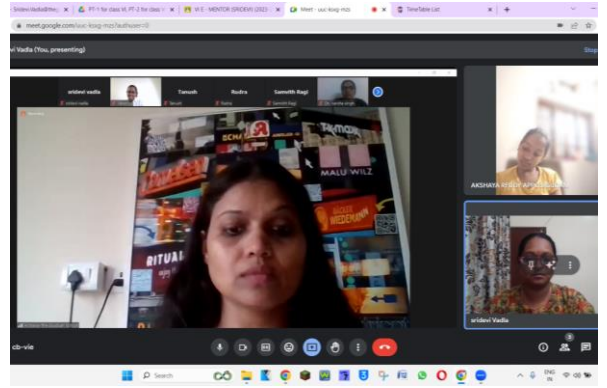

## **Fostering Creativity and Intellect: T-Shirt Painting, Fireless Cooking, and Debate Competitions in Our School**

At Gaudium, we believe in nurturing the holistic development of our students, encouraging creativity, critical thinking, and camaraderie. In line with this philosophy, we recently organized three remarkable events - T-Shirt Painting, Fireless Cooking, and Debate Competitions. These competitions provided our students with unique platforms to showcase their artistic talents, culinary skills, and oratory prowess.

# Global Leadership

## Student Election Campaign

In an innovative adaptation to our digital era, students launched an engaging online election campaign, showcasing their leadership skills and policy ideas on various digital platforms. This virtual campaign fostered a democratic spirit amongst students and highlighted the importance of digital responsibility and respectful discourse, all while allowing their voices to be heard far and wide. With passion and eloquence, students delivered compelling speeches during the election campaign, outlining their visions for positive change and student-centric initiatives.

# Global Leadership

## Life skills

Students showcased their talents on various fields, be it with fireless quick cooking or best out of waste. This was to project their creativity and team-work which always results to best outcome.

# Global Leadership

## Orientation session about College Application Process

College application is the process by which individuals apply to enter a college or university. The application has many important components. Students get a chance to show the reader who you are and why they would want you on their college campus. Your activities highlight your interests and your tendency to take a lead in them. Accurate applications demonstrate care and thoroughness.

An informative session was conducted by Ms. Mahitha Sammeta the school Career Counselor, to give all the required information on how to start their applications, Brag sheet information and how to keep their evidence ready for the applications, keeping record of the previous documents. Students were happy as their questions were answered and for the detailed guidance and support given by the school.

# Stakeholder's Engagement

## A Thrilling Adventure at the Zoo!

As we recount the thrilling highlights of the Grade 6 zoo field trip! On 7th July 2023, Grade 6 set off for an unforgettable day. We explored the mammal enclosures, but the real magic happened during the Safari. Dancing bears and adorable white tiger cubs bathed in turmeric powder stole our hearts.

The excitement didn't end there! Our adventure continued with the Toy Train ride, where we were taken on a delightful journey around the zoo. From the comfortable train, we marveled at the majestic giraffes and graceful deer, and even caught a glimpse of the beautiful Neelgai.

This incredible experience left us with lasting memories and a newfound love for wildlife.

# Stakeholder's Engagement

## Kenya Orientation

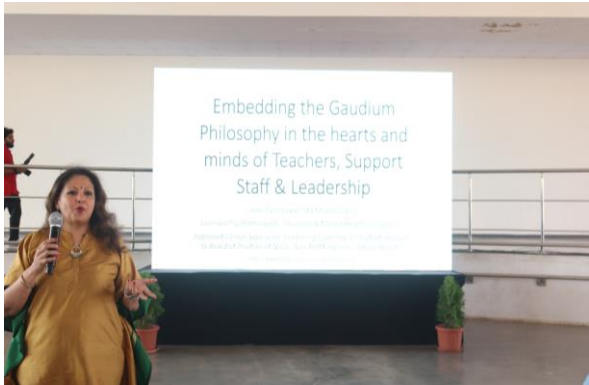

Our school's orientation was about the trip that will be an enriching experience and broaden our horizons and create lasting memories. The trip to Kenya is designed with a strong focus on education and learning outside the classroom. Kenya is renowned for its diverse wildlife, and we will have the chance to witness some of the most magnificent creatures in their natural habitats.

Embracing the vibrant Kenyan culture is an integral part of this trip. Guided tours and visits to significant historical sites promises to be an unforgettable adventure filled with invaluable educational experiences. Together, we will learn, grow, and forge bonds that will last a lifetime.

# Stakeholder's Engagement

## Empowering Staff

The school organized an extremely efficacious Professional Development session for teachers. The session was an eye opener for the faculty to venture into the unknown paths of teaching strategies. The session was held on 1 July 2023, which proved to be a day of empowerment and development in the process of honing skills for the new academic session. Ms. Laxmi Parmeshwar, Founder of Positive Outcomes, with her expertise and enriching workshop enlightened the staff. Engaging discussions and personalized guidance made the session memorable, equipping the staff with valuable knowledge and tools for their personal and professional growth.
