

P R I S M

Grade PP2
June and July 2023

Message from the Head of School – IB PYP

Dear Parents,

Greetings from The Gaudium!

A very warm welcome to the new academic year 2023-24.

I believe this new school year will continue to usher in various opportunities to learn, share experiences, build capabilities and achieve success through a safe, and stimulating environment. Our learning environment reflects the vision and the spirit of our school, and we will continue to unlock the potential of each student to bring out the best in them.

Nothing much can be achieved alone, and it is rightly said that power lies in the team. Recently I read a short story which further strengthened my belief in teamwork.

The victory of United States over the Russian hockey team in the 1980s Olympics was called the “Miracle on Ice” for many reasons. The Russian team had dominated the sport for as long as anyone could remember, and in the United States, hockey had always been a second- or third-tier sport. How the 25-year-old team captain Mike Eruzione got his team to bring home the gold and beat the odds-on favourites, the seasoned Soviet team had been the most inspirational teamwork example.

Message from the Head of School – IB PYP

As a child, Eruzione never thought of himself as a star player. He thought of himself as a **team player**. He believed success was due not to individuals excelling as much as everyone on the team carrying their own weight and having a strong work ethic. Although at Boston College he didn't make it to the main team and was placed on the B team, he was told not to lose confidence.

With those early lessons in teamwork he gained the respect and trust of the Olympic hockey team. He understood that there were a lot of egos on the team that had to be put aside for the good of the team. Everyone had to feel they were important and were contributing. The backup goalie, Steve Janaszak, never played in the Olympics, but he was as important to the win as anyone.

Teamwork is not having one person force their way on the others. It's about being open minded. All involved must find common ground and work together because the end result is something all can benefit from. Teamwork must be a process, not etched in stone, but always open and willing to improve. *Teamwork is inspiring!*

(Adaptation-<https://www.projectmanager.com/blog/teamwork-examples>)

At The Gaudium School, we believe that parents and teachers need to work together to create the best possible environments to foster physical, emotional and intellectual well-being for all our students. Children do best when parents and school are connected in meaningful ways. Teacher and parental involvement in a child's learning contributes to his/her success.

Let us come together as a team with greater vigour and zeal to ensure that we communicate, support, encourage and trust our children in their journey of learning!

On this note I thank each one of you for your firm faith in our vision and support in the efforts to unlock the potential of every student!

Warm regards,

Anjalika Sharma

IBPYP Head of School

Message from the PYP Coordinator's Desk

Dear Parent

Greetings from The Gaudium!

As I embrace change and growth by becoming part of The Gaudium family, I am thrilled to witness our expressive and engaged students unleash the power of their curiosity. Each classroom has its own story to tell. I was fortunate to be part of the grade level assemblies focused on our core value 'respect'. Our students' creative presentations showed me respect through a new lens. Respecting everyone, respecting everyone's ideas, respecting time, respecting the environment were a few takeaways for us.

We are happy to share that our youngest early years learners have achieved their first milestone: they enter school with smiles, excitement and ease.

They have settled well into their classrooms, which are vibrant spaces of discovery and exploration, where learning looks like a delightful adventure.

Each grade is at the end of their first Unit of Inquiry, where students have constructed knowledge and made connections, researched and have taken the ownership of their learning by learning the art of framing effective questions.

Message from the PYP Coordinator's Desk

Students of Grade 2 got an opportunity to learn beyond the walls of the classrooms. They visited Mrugavani Park to understand our responsibilities in public places. Now it's time for them to evidence their learning through the unit end assessments.

Life Skills in our school play an important role in developing holistic individual. These sessions are designed to equip our learners to become independent and accept challenges. As a part of the Life Skills program this month, Grades 1 and 2 enjoyed learning to make lemonade and Grades 3 to 5 participated in an informative session on First Aid.

Grade 5 is the culminating year of the IBPYP Programme and hence our students of grade 5 are understanding the role of The PYP Exhibition by reading, interpreting, discussing and annotating The PYP Exhibition Guidelines document given by IB. The Exhibition is a yearlong process, and we will continuously share our learnings along the way with you.

Learning never stops at The Gaudium: our mentors went through an intensive professional development on our working Saturday. We ensure that we learn together and equip ourselves to facilitate learning for our young learners.

I have seen the past few weeks filled with impressive learning and engagement, be it students, mentors or leadership. I feel privileged to be part of The Gaudium Family. It is my utmost priority to build a strong bond of trust with our students and their mentors. We have shared responsibility to nurture our students. We thank all the parents and guardians who ensured to connect with our mentors on TPC. We look forward to your continuous support!

Meera Chhabria

PYP Coordinator

The Gaudium School

School Philosophy – 5 Developmental Pillars

Mindfulness and Well-being

Students and teachers engaged in and practiced a range of mindfulness exercises. They practiced five finger starfish breathing and mindful movement using deep relaxation and mindful walking. They enjoyed sense awareness by touching and feeling different textures which alerts the senses, helps them to increase their ability to focus and pay attention in order to enhance their focus and concentration abilities.

Students shared about themselves in self-awareness where they also connected to similarities and differences. They further explored being thankful for the things around them through mindful thinking activity

As the students are still in the process of settling in, the Inclusion and learning diversity department started with their wellbeing sessions under the theme - Personal Identity. The students engaged in classroom activities where they were talked about their likes and dislikes, what they see themselves as, drawing pictures of themselves etc.

The theme focused on how students are and how they perceive themselves. It also focused on ways everyone is different.

School Philosophy – 5 Developmental Pillars

Core Values

Core value for the month, 'Respect', was inculcated through various ways. Students discussed the meaning of 'respect'. They connected to stories related and shared real-life examples of where they have displayed respect.

Stakeholder Engagement

Parent Orientation was conducted on both virtual and physical platform in the beginning of the academic year. Parents were introduced to our school's vision, mission and philosophy as well as the five developmental pillars. They were given an insight into the programme and curriculum details, school policies, and key information. We also had the first Teacher Parent Conference to discuss and reflect upon the academic progress, share specific observations, feedback and feedforward.

School Philosophy – 5 Developmental Pillars

Global Leadership

Students demonstrated their ownership for their learning by engaging as well sharing how best they learn, sharing their learning with others, what do they want to learn and how would they learn. They are were involved in making choices and co- constructing essential agreements.

Holistic Excellence

As a part of holistic excellence, students engaged in read aloud sessions, listening to stories during their reading sessions. They thoroughly enjoyed listening to stories and shared their reflections. Students engaged in inquiry and made transdisciplinary connections. They made connections with attributes of learner profile during the learning and teaching. They also made lemonade as a part of the life skills programme.

Professional Development

5 Developmental Pillars Of 'The Happy Minds' Model

The Gaudium Happy Minds' Model rests on 5 developmental pillars, which represent our belief that- Holistic Excellence in learning, teaching, and leading is achieved by imbibing 5 core values and implementing a well-defined mindfulness and well-being programme involving all stakeholders thereby ensuring that our global leaders are ready to take the quantum leap into the future.

We had a session on the five developmental pillars by the core team members.

Holistic Excellence

Holistic Excellence focuses on providing a joyful learning environment where every child engages in exploring, experiencing, experimenting, and exhibiting their learning which encourages them to take action and inculcate leadership qualities to make a difference to themselves and others.

The session on Holistic Excellence was facilitated by **Ms. Nour, Grade-Level Lead (G1), and Ms. Brinda, our teacher-librarian**. Together we reviewed the holistic excellence calendar. As a team, we shared and reflected on how the students know the importance of reading books and shared their reflections, life skills activities, and suggestions if any to be made for the current academic year 2023-24.

Core Values

Our 5-core values Respect, Empathy, Integrity, Perseverance, and Gratitude are essential for all to balance their inner and outer world in the pursuit of happiness. **Ms. Madhulika Gupta, Grade 1 HRT and Ms Smita Parikh, Grade 4 HRT** helped the team to understand in depth the core values. We discussed the importance of the core values calendar and the reflections shared by the stakeholders.

Professional Development

Mindfulness and Well-being

Our mindfulness and well-being programme is an integral part of our daily life at school and provides an enriching experience by enhancing the intellectual, moral, emotional, social, and physical development of each student. **Ms. Deepa, Grade 1 HRT and Ms. Koyel, Grade 5 HRT** shared the importance of mindfulness and well-being with the team members followed by their reflections. We reviewed the mindfulness curriculum and the calendar followed by sharing our perspectives.

Stakeholder Engagement

Students, Parents, Teachers, staff, and the local community are stakeholders who meaningfully connect and collaborate to learn, grow, and add value to the school culture. **Ms. Praveena Grade-Level Lead (G3) and Ms. Nusrath, Grade 4 HRT** helped the team to understand the importance of our valuable stakeholders and how are they involved in various activities and helping the students to learn and grow. We discussed events and activities is to be added as a part of the stakeholder engagements followed by reflections.

Global Leadership

It equips our students with confidence, skills, and competencies that lead to self-clarity, enhance interpersonal skills, and foster positive changes in the community using the levers of innovation. We had various activities designed and facilitated by **Ms. Srilalitha Dasari, Grade 5 HRT and Ms. Arshi Munawar, Grade 5 HRT** to know the importance of Global Leadership. We shared the importance of the United Nations Sustainable Development Goals (UNSDG) and the IB leadership capabilities and also discussed the initiated actions and the innovative ideas that the students came up with during their design thinking process.

Professional Development

Concept-Based Learning

Concept-based inquiry is a powerful vehicle for learning that promotes meaning and understanding and challenges students to engage with significant ideas. Concepts are powerful, broad, and abstract organizing ideas that may be transdisciplinary or subject-based. Concepts help to build understandings across, between, and beyond subjects. The concept-based learning session was conducted by **Ms. Durgesh Jadhav, our PYP coordinator**. We discussed and shared various learning engagements that worked well in our classes to understand the same.

Action in PYP

Students take action in response to their inquiries or motivation to make a positive difference and bring about positive change. As an integral part of the learning process, action can be embarked upon at any point and can take many forms, depending on individual development, learning, and experiences. It may be individual or collective, small or large scale, and may take place at home, at school, or in local or wider communities. **Ms. Arshi Munawar, Grade 5 HRT, and Ms. Seena Nair, Grade 4 HRT** helped the team by understanding the importance of action in PYP and shared a few examples of students' actions.

We shared ways students make appropriate choices and take responsibility for personal learning and actions, working collaboratively with teachers and peers to plan, present, reflect upon, adjust, and contribute to collective action, contributing to discussions and learning experiences, raising awareness of opportunities for taking action with peers and/or family, getting involved in class, school, and community projects, considering and acting on factors that contribute to personal, social and physical health and well-being with few examples.

Professional Development

Inquiry

Inquiry is purposeful and authentic. It incorporates problem-solving and supports students in achieving personal and shared goals. Inquiry extends students' learning when the exploration of initial curiosity generates new questions and wonderings. **Ms. Praveena, Grade-Level Lead (G3), and Ms. Rashi, Grade-Level Lead (G5)** had an interactive session with the team on the importance of inquiry and shared a few strategies on how to conduct inquiry in their classes with examples.

We collaboratively discussed various learning engagements that worked well in the classrooms to know the importance of experimenting, making connections between previous learning and current learning, collecting data and report findings, researching, and seeking information, and solving problems in a variety of ways.

We also shared our perspectives on how an inquiry helps to facilitate the development of the IB learner profile and supports students to become critical and creative thinkers, researchers, collaborators, and communicators.

The team reflected on ideas such as the importance of personalized learning using a range of strategies, grouping strategies, formulating questions, data collection, and analyses, using the learning community, etc. while ensuring inquiry becomes the pedagogy in the classrooms. We understood the importance of time, resources, collaboration, and strategies while engaging in the process of inquiry. Overall, the PD session was a great learning experience for the team.

Professional Development

Assessments

The assessments professional development session was led by **Ms. Anjalika Sharma, Head of School IB PYP**, who shared the importance of assessments in the primary years programme. It is an ongoing process of gathering, analysing, reflecting, and acting on evidence of student learning to inform teaching, and how it involves teachers and students collaborating to monitor, document, measure, report, and adjust learning.

We also discussed and shared how to co-construct the learning goals and success criteria, and the characteristics of effective assessment that should be authentic, clear and specific, varied, and developmental. We concluded the session by reflecting on the importance of giving timely feedback and feedforward.

PYP Exhibition

The PYP exhibition is the culminating, collaborative experience in the final year of the PYP. The session was conducted by **Ms. Debolina and Ms. Koyel Das, Grade 5 HRT** conducted the session for the team to know the importance of the PYP Exhibition. During the session, we discussed how the exhibition is student-initiated, designed, and collaborative in nature. We had a session to know about the purpose and the essential features of the PYP exhibition.

The team also shared the different ways how students explore multiple perspectives, be independent learners, and be responsible for their learning to take action.

Professional Development

PYP Planners

Our PYP planners are working documents, with the flexibility to revise learning outcomes, engagements, and ongoing assessments. To know about the importance of IB PYP planners, **Ms. Rashi, Grade-Level Lead (G5), and Ms. Amara Vijayan, Associate Coordinator** lead the session. The PYP planner is to be used by all teachers to organize their teaching around the exploration of a central idea. All teachers, including single-subject teachers, are expected to use the planner to facilitate the collaborative planning process and ensure that the pedagogy of inquiry is pervasive throughout the school and in all areas of the curriculum. The planner is to be used to facilitate more extensive inquiries. All teachers in the school have a responsibility for developing or contributing to the development of planners to support the units of inquiry documented on the programme of inquiry.

Teachers had an opportunity to collaborate with different grade-level team members and shared their ideas and completed the three sections - Reflecting and planning, Designing and Implementing, and Reflecting on the planners followed by sharing their reflections.

ILD Session

The team-building activities were conducted by **Ms. Nainitha Dulam, special educator, Ms. Pritha, and Ms. Hadiya, school counsellors** for the teachers. Team building activities help to cooperate and collaborate in problem-solving, develop empathy and trust in the group and yourself, enhance creativity, and boost self-esteem.

The team building session was followed by an interactive session where teachers discussed effective methods of being connected with the stakeholders and positive ways to help the students in their academic, social, and emotional well-being.

Professional Development

Design Thinking

Design thinking is a problem-solving approach that emphasizes empathy, experimentation, and iteration in the pursuit of creating innovative solutions. The session on design thinking was led by **Ms. Seena Nair, Grade 4 HRT, and Ms. Arshi Munawar, Grade 5 HRT.**

A design thinking session enabled the team to better understand their students' needs and perspectives. By taking an empathetic approach, teachers can gain insight into the unique challenges and needs of their students, which can inform the design of their lessons and curriculum.

Design Thinking encourages teachers to take a more experimental approaches to teaching. By experimenting with different teaching strategies and techniques, teachers can gain a deeper understanding of what works and what doesn't in their classrooms. Teachers will be open to iteration and feedback. This can help them to make more informed decisions about how to improve their teaching, making it more engaging and effective, which can ultimately lead to better student outcomes.

School policies

We had a session about the school policies related to “Academic Integrity, Code of Conduct, and IT policies” that was conducted by **Ms. Usha Mahesh, HR Head, Ms. Brinda, teacher librarian and Mr. Varun, Senior IT Manager.** We shared our perspectives and posed questions on the implementation in the classroom and school to deepen our understanding.

Professional Development

Reading Sessions:

The Early Learner: Teachers support students in developing social-emotional competence because this connects to children's emotional well-being and their ability to adapt to new environments and form successful relationships throughout life. We discussed how the teachers support learning by planning and giving uninterrupted time for play, building strong relationships with students and their families, creating and maintaining responsive spaces for play, and offering many opportunities for symbolic exploration and expression with real-life examples.

Learner Agency: Implementing Agency sessions focused on ways to promote agency in students, the relationship between the teacher and students becomes a partnership, and students with a strong sense of self-efficacy bring a stronger sense of agency to the learning community. We shared how the students take initiative, express interest and wonderings, and make choices to achieve their goals.

Professional Development

Learner Profile: The attributes of the learner profile represent a broad range of human capacities and responsibilities that encompass intellectual, personal, emotional, and social growth. The development and demonstration of these attributes are foundational to students becoming internationally minded, active, and caring community members who respect themselves, others, and the world around them.

We discussed how the students demonstrate and reinforce the attributes of the learner profile in their daily life by sharing examples that include as a part of the school curriculum, through interactions in a variety of learning spaces, through school events, and at home and in the wider community. We shared how all the members of the learning community play an important role in valuing, appreciating, and demonstrating celebrating the learner profile in action. We also shared a few examples of how these attributes are connected to learning goals, actions, self-assessment, etc.

As a team, we read and reflected on how the attributes of the learner profile are connected to transdisciplinary learning. We shared our perspectives on how the attributes of the learner profile are developed and revisited through the units of inquiry through subject-specific investigations and how are they documented on PYP planners as a part of the collaborative planning process.

Learning and Teaching – This Month

Unit of Inquiry

Transdisciplinary Theme

Who we are

Central idea

Awareness of characteristics, abilities and interests informs learning and development.

Lines of inquiry

- Physical, social and emotional characteristics.
- Similarities and differences between ourselves and others.
- Personal abilities and interests.

Key concepts

Form, Function, Perspective

IB Learner Profile Attributes

Communicators, Balanced, Reflective, Knowledgeable

Unit of Inquiry

Students started their first unit of inquiry under the transdisciplinary theme-Who we are. They visited four stations of art,play,books and PE and were given a choice of the favourite station to engage themselves in. They reflected on what did they did and why did they choose to do so. They shared and co constructed the meaning of the words- interest and ability. Students inquired about physical, social and emotional characteristics through different stories. They learnt about emotions through the guest session by the School Counselor and shared their reflections.

Learning and Teaching – This Month

Transdisciplinary Language

Students inquired into opposites. They were introduced to sight words. Students practiced blending and engaged in reading and writing. They also learnt that each letter of the alphabet has its own characteristic, and each letter is different from the other. This was followed by sorting them as giraffe letters, turtle letters and monkey tail letters.

Transdisciplinary Math

Students were able to identify numbers and sorted them in various ways. They compared big and small numbers. Students further explored problem solving through simple addition by skill practice and writing the number statement. They explored bar graph to compare and contrast. Students engaged in reading, analysing and interpreting data.

Art

Students introduced themselves while playing a game of snowball fight. They created a picture of how and what they did during their summer vacation. They observed different artworks and shared their understanding of two things they liked and one thing they want to learn. They chose an art form to create their artwork. Students watched a video about favourite colours, shared their favourite colour and used it to create their artwork. They observed an artwork and shared the colours that are mostly seen in the artwork. Students revisited primary colours and created an artwork using them. They further explored colours by mixing two primary colours. They shared their observations. Students noticed when the two primary colours were mixed, they make a new colour. They were introduced to the basic secondary colours – orange, green and purple. They identified these colours and gave real life examples of objects that have these colours.

Learning and Teaching – This Month

Dance

Students shared their understanding of dance by expressing what it -feels like, looks like and sounds like. They were introduced to basic movements like jump and turn and two basic hand movements clap and roll. They combined these movements while dancing.

Music

Students were introduced to basic musical instruments like guitar, piano, drums and xylophone through sound and pictures. They learned to sing the songs 'You are my sunshine', 'we shall overcome' and 'one Indian'.

Drama

Students did different warm up activities. They watched a drama performance and discussed what I felt, heard, saw and discussed about the story, sounds, and characters. They watched and heard a story and differentiate real or imagined and tried to enact it.

PE

Students framed essential agreements for the class. Students explored different types of warm up exercises (Stretching exercises, Rotation exercises, Jumping exercises). They started to develop a range of fine and gross motor skills. Students focused on fitness through warm up and cool down exercises. They reflected on their experiences after each learning engagement to build a deeper understanding of skills learnt.

Learning and Teaching - This Month

Learning and Teaching - This Month

Learning and Teaching - This Month

Learning and Teaching – Month Ahead

Transdisciplinary Theme

How we organize ourselves

Central Idea

Many products go through a process of change before they are consumed or used.

Lines of Inquiry

- Origin of products
- Processes products go through
- Reasons for change in products

Key Concepts

Function ,Change
Causation

Related Concepts

ingredients, process,
consumption

Learner Profile:

Inquirers, Thinkers

Unit Of Inquiry

Students will further explore abilities and interests through various learning engagements. They will connect with the concept of Identity.

Students will inquire into new unit under the theme “How we organize ourselves”. They will explore about products, origin and processes products go through.

Learning and Teaching – Month Ahead

Transdisciplinary Language

They will continue to explore singular and plural. They will connect to action words. Students will practice blending and engage in reading and writing simple sentences. They will also be introduced to Digraphs (ch,sh,th).

Transdisciplinary Math

Students will compare numbers and further be introduced to cardinal and ordinal numbers as well as number names. They will be introduced to flow chart. They will use tally marks and bar graph for reading and interpreting data.

Dance

Students will be introduced to two new leg and hand movements. They will recall the movements learnt in the previous sessions. Facilitator will demonstrate one way of combining the movements during the dance, using count of eight. They will share how they can combine the leg and hand movements learnt, while dancing.

Art

Students will continue to explore colours by making the secondary colours using primary colours and use them in their artworks.

Learning and Teaching – Month Ahead

Music

Students will be introduced to tune (melody) and pitch through different rhymes and songs. Students will be introduced to a song in the Indian language 'Hum Honge Kamiyab' and in Spanish too.

PE

Students will be introduced to throwing and kicking with benefits.

Drama

Students will listen to an audio story and then share their thoughts about what was happening and how they connect through different sounds. Following this they will try to enact the story. They will listen to a range of different sounds and connect them to make a story.

Happenings Month Ahead

Events	Date
Investiture Ceremony	4th August
PYP Life skill	11th August
Independence Day Celebration	15th August
PYP Life skill	25th August
National Sports Day	29th August
